

GridTracker v1.21.0407

An Amateur Radio Companion by the Amateur Radio Community

April 7th, 2021

General Information

This is the 2nd hot-fix open source release. We would like to thank everyone that found things that did not work or didn't work exactly right and brought them to our attention as well as everyone that has brought us suggestions for improvements.

Stephen 'Tag' Loomis has graciously made GridTracker open source. That means we can all work together to make it better. 'Tag' has decided to spend more time focusing on other projects, but there is a new core team of developers who are working to keep things current and continue on his great work.

GridTracker is now:
